Experiment 3: Car Booking Reservation System

Aim

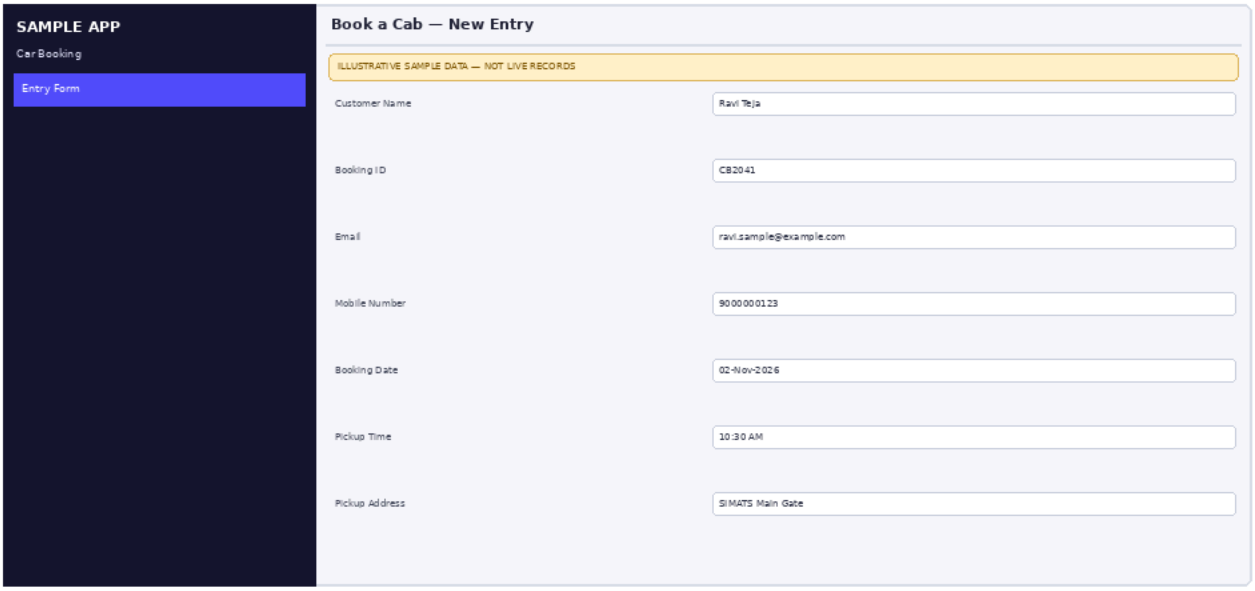

To create a simple cloud-based Car Booking Reservation System using a cloud service provider to demonstrate SaaS.

Algorithm

1. Open Zoho Creator and create a new application.
2. Create a form named Car Booking Reservation System.
3. Add fields such as Customer Name, From, To, Booking Date, and Car Type.
4. Add a field to search for available cabs.
5. Set the trip type as Rental or Outstation.
6. Add fields for Package Type, Hours, Days, and Number of Passengers.
7. Save the form and publish the application.
8. Enter booking details and view the submitted records.

Implementation

Input

Output

Result

Thus, a cloud-based Car Booking Reservation System was created successfully to manage cab bookings and demonstrate SaaS.
